GENERAL INFORMATION:

NUMBER OF SEQUENCES:

APPLICANT: CAHOON, Edgar B.
APPLICANT: OHLROGEE, John B.
TITLE OF INVENTION: Methods and Compositions Relating to
TITLE OF INVENTION: Plant 6-Delta Palmitoyl-Acyl Carrier Protein Desaturase

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Ъ
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               Sequence 3, Application US/08329560
Patent No. 5654402
GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: CAHOON, Edgar B.
APPLICANT: OHLROGEE, John B.
TITLE OF INVENTION: Methods and Compositions Relating to
TITLE OF INVENTION: Plant 6-Delta Palmitoyl-Acyl Carrier Protein Desaturase
